

Artem Khaiet

Mt Prospect, IL 60056 | (872) 985-4876 | timkhaiet@gmail.com | artkha1.github.io/portfolio

EDUCATION

B. S. in Computer Science | University of Illinois at Urbana-Champaign Expected May 2027

- Cumulative GPA: 4.0/4.0
- Minor in Statistics

Associate of Engineering Science | Harper College | Palatine, IL May 2025

EXPERIENCE

Ground Data Systems Intern

NASA Jet Propulsion Laboratory | Pasadena, CA Jun 2026 - Present

- Updating and validating mission support tooling for Python 3.12 compatibility
- Supporting deployment, testing, and automation workflows using Jenkins, Robot Framework, and TestRail
- Assisting with migration of operational Shiftlog data into Cachier and validating data integrity/searchability
- Working across GDS environments supporting SWOT, Sentinel-6, and CRISTAL

Science Data Systems Intern

NASA Jet Propulsion Laboratory | Pasadena, CA Jun 2025 - Sep 2025

- Developed a Python script to generate reports and visualizations verifying completeness of incoming datasets for the Surface Water and Ocean Topography (SWOT) mission
- Updated, organized, and optimized existing reporting tools, achieving up to 5× performance improvements
- Leveraged AWS Elasticsearch, the HySDS framework, and Python to interact with cloud-hosted satellite data products
- Adapted AWS Terraform infrastructure to the SWOT mission, enabling automated cloud cost projection and estimation and ensuring mission-specific resource planning

Data Analytics Intern

University of Chicago Urban Labs | Chicago, IL Jun 2024 - Aug 2024

- Developed a Python package to benchmark an internal geocoding tool against various configurations and an external API, improving performance evaluation
- Automated the creation of geospatial reports, integrating maps and key statistics
- Presented findings through LaTeX, Jupyter notebooks, and slide decks, including actionable recommendations to be implemented for decision-making

Data Analysis Micro-Intern

Haitian Global Health Alliance | Remote Aug 2023

- Cleaned and prepared survey data on attitudes about violence against children in Haiti
- Developed 7 interactive dashboards with 19 charts in Tableau Public, enabling detailed data exploration and visualization

SKILLS

- **Programming Languages:** Python, R, SQL, C++, Java, MATLAB
- **Python Libraries:** pandas, scikit-learn, numpy, matplotlib, geopandas, Flask
- **Tools and Workflow Automation:** AWS Elasticsearch, Terraform, Slurm, Git, Conda
- **Data Visualization and Presentation:** Tableau Public, Jupyter, LaTeX
- **Languages:** English, Russian, Ukrainian
